SUMMARY

Results-oriented professional with 3+ years of frontend development experience using ReactJs. Proven ability to deliver high-quality solutions across the software development life cycle. Strong collaborative and problem-solving skills in fast-paced environments.

EXPERIENCE

Front-End Developer
Landis Gyr   January 2022 - Present, Noida
- Develop high-quality and responsive user interfaces using HTML, CSS, JavaScript and ReactJs.
- Upheld visual consistency and brand integrity across diverse product interfaces.
- Collaborate with product managers and stakeholders to understand project requirements and provide technical insights
- Stay up-to-date with the latest front-end technologies, trends, and best practices, and proactively suggest improvements to the development process
- Champion usability and accessibility, adhering to web accessibility guidelines (e.g., WCAG) and implementing UX principles
- Provide technical guidance and mentorship to junior engineers, fostering their growth and development
- Worked with Quality Assurance to get new pages/products tested, and addressed any issues within 48 hours.
- Participated in an agile, collaborative environment across software architecture, understanding both front-end and back-end processes, while specializing in the front-end.
- Experienced in JavaScript, familiar with the latest syntax (min. ES6), with a proficient understanding of React.js and Node.js. Practiced in UI development technologies such as HTML, CSS, Redux, and API usage.

Programmer Analyst
Cognizant Technology Solutions   September 2020 - December 2021, Bangalore
- led front-end and CSS issue resolution, showcasing effective team collaboration.
- Oversaw project plans, ensuring transparent communication and timely updates.
- Managed cross-functional teams, driving end-to-end project success from design to debugging.
- Write clean, modular, and maintainable code following coding standards and best practices
- Conduct thorough testing and debugging to ensure the functionality and performance of UI components
- Participate in code reviews, providing constructive feedback to improve code quality and maintainability
- Work closely with backend engineers to integrate frontend interfaces with server-side logic and APIs

EDUCATION

Bachelor of Technology in Computer Science and Engineering
SRM University · Chennai, Tamil Nadu · 2020

PROJECTS

Chat App Using MERN Stack
- Engineered a user-friendly full-stack chat app, swiftly deployable with minimal setup.
- Seamlessly integrated Material UI for a sleek front-end, seamlessly powered by React.
- Constructed a robust backend utilizing Express.js and Node.js for optimal performance.
- Implemented Socket for real-time messaging, enhancing instant communication.

Bus Reservation System Using MERN Stack
- Orchestrated a comprehensive Bus Reservation System, optimizing ticket booking and route management.
- Designed a captivating, responsive front-end using HTML, CSS, and JavaScript in React.
- Engineered a resilient backend infrastructure, leveraging Express.js and Node.js.
- Enhanced the travel experience by seamlessly fusing thorough planning with innovative technology.

SKILLS

Java, JavaScript, HTML5, CSS3, SASS, Rest API, React.js, Redux, Node.js, No-Sql(MongoDB), MySQL, Responsive UI, CentOS, Git and Github

Teamwork, Team Player, Leadership, Time management and Result-oriented
